

Dear Parents,

These math packets have been compiled to help your child review the skills that they have learned in their current grade level. It is our goal at Palmer Catholic Academy to ensure that the students enter the new school year with confidence about the material they have learned in years past so that they can build upon their skills and strategies. Most of the packets are designed with the idea that your child will complete around 3 pages each week. Please make sure to that your child has completed the math packets before the first day of school. Teachers in grades 1-2 will be using this as a work habits grade for the first quarter and teachers in grades 3-5 will be counting it as a homework grade.

Thank you for your continued support at home! 😊
